- manage any inspection type including Health, Safety and Building

Code Enforcement

- collect and track citizen complaints and CE activity
- customized review process
- group complaints into cases
- collect digital evidence (ie.pics) and instantly share
- assign/collect fees

Why CivicXpress?

Quick

Ready, set, done! CivicXpress was built on a flexible platform that allows us to get you up and running in less than 7 weeks, in most cases.

Is that fast enough? Plus, you don't need to be an IT expert or wizard, we do all the heavy lifting for you!

Powerful

CivicXpress can be accessed by ANY user, from ANY location, at ANY time. Citizens and developers can access all of their permits and forms from ONE site, regardless of submitted municipality.

CivicXpress is a web-based solution that easily works in the field on any mobile device. It allows inspectors, code enforcement officers and citizens to collect any violation or complaint, capture images and enter comments.

Affordable

You'll find we're not your normal software company especially when it comes to pricing. We are not looking to up-sell you or modularize our products.

CivicXpress is a complete solution with low up-front costs and quick ROI.

Request a price quote today and see for yourself!

User-Friendly

Our application designers are obsessed with creating easy and intuitive applications.

In addition, CivicXpress includes free training for municipality employees as well as vendors and citizens.

Great design + free training = exceptional user adoption.

FOIA Compliant

CivicXpress is 100% compliant with all state and federal regulations and makes it easier to respond to FOIA requests by simply sharing the CX records.

Customizable

The entire CivicXpress platform was designed from the ground up to be flexible to each participating municipality. Each municipality can create their own forms, processes and other system settings.
